QUITCH USABILITY EVALUATION

Thank you for undertaking our usability evaluation.

This evaluation will require you to fill in 4 different google forms and perform a number of defined tasks with our prototype. We will guide you through every step of the process and always remember that you have the right to leave the evaluation at any time if you need to.

You will need to have a mobile device with stable internet connection to perform the evaluation. During the whole process, you will be in a zoom meeting with our team so that we can give out instructions. When you are interacting with our prototype, you will need to share your screen in the meeting so that we can observe your experience.

If you need further assistance, please inform us before the evaluation begins.

Please wait for our instruction before clicking the links below.
